

I am a listener of K-LOVE radio. I have this station on every day and it is very important to me. I know many of my neighbors and co-workers listen to it daily as well. If K-LOVE was not available because of being displaced by an LPFM change, many people--including myself--would miss it very much. This station is uplifting and encouraging and is needed in this day and age. Please don't let LPFM knock good stations like K-LOVE (91.1 in Denver) off the air! Thank You!
